SYLLABUS
EE 4314 Control Systems (Section 601)
Summer 2004
T R 10:30am-12:20pm
Room 110 NH

Instructor: Kai S. Yeung
Office: Room 524 NH
Office Hours: M W 10:00-11:30am
Phone: (817) 272 3467
Mailbox: Electrical Engineering, Box 19016, UTA, Arlington TX 76019
Email: yeung@uta.edu

Course WWW site: http://www-ee.uta.edu

Required Textbook(s): Modern Control Systems, 10th Edition, R. C. Dorf and R. H. Bishop,
Addison-Wesley, 1998

Course Description: Analyses of closed loop systems using frequency response, root locus,
and state variable techniques. System design based on analytic and
computer methods.

Prerequisites: Linear systems theory
Laplace transform
Differential equations
Difference equations
Electrical circuits
Mechanical systems

Course Learning Goals/Objectives: To introduce the basic concepts and methods needed to
model, analyze, design and simulate single-loop feedback
control systems. Student successfully completing this
course will be able to apply appropriate mathematical
techniques to the analysis and design of feedback
control systems. Moreover, students will gain the ability to
use computer-aided design tools and acquire knowledge
necessary to stay abreast of developments in the field.

Course Content: Modeling of physical dynamic systems
Block diagrams
Signal-flow graphs
Specifications of feedback system performance
Steady-state performance of feedback systems
Stability of feedback systems
Root-locus method of feedback system design
Frequency-response methods
Nyquist's criterion of feedback loop stability
Bode design method
Design using classical compensators
State variable feedback

Attendance and Drop Policy: Students are NOT ALLOWED to drop after the last drop date
publicized on the UTA webpage.

Course Requirements, Evaluation & Final Grade:
Examinations: Three exams will be given, including the final exam. All three exams carry equal
weights. One exam grade will be dropped, and only two exam grades will contribute to the term
grade.
Exam times and dates: Exam I: Tuesday, June 29, 2004, 10:30am-12:00noon.  
Exam II: Thursday, July 29, 2004, 10:30am-12:00noon.  
Final Exam: Thursday, August 5, 2004, 10:30am-12:00noon.  
(If an exam is canceled due to inclement weather or other unexpected reasons, it will take place in the subsequent scheduled class time and place. Pictured I.D. is required to take an exam. No borrowing of items including calculators, erasers are allowed in an exam.)  
Homework: Up to seven assignments will be given. All assignments have to be turned in on time. Homework grades will be used for borderline considerations.  
Projects: Two computer simulation assignments will be given. They account for 10% of the term grade.  
Missed Exams: Missed exams will be assigned a grade of 0%.  
Make-up Work: No makeup exams or makeup works will be given.  
Incomplete Grade: No grade of "Incomplete" will be given.

Student Evaluation of Teaching  
Evaluation forms will be given to the students at the end of the semester.

Americans with Disabilities Act:  
The University of Texas at Arlington is on record as being committed to both the spirit and letter of federal equal opportunity legislation; reference Public Law 93112—The Rehabilitation Act of 1973 as amended. With the passage of new federal legislation entitled Americans with Disabilities Act — (ADA), pursuant to section 504 of The Rehabilitation Act, there is renewed focus on providing this population with the same opportunities enjoyed by all citizens.

As a faculty member, I am required by law to provide "reasonable accommodation" to students with disabilities, so as not to discriminate on the basis of that disability. Student responsibility primarily rests with informing faculty at the beginning of the semester and in providing authorized documentation through designated administrative channels.

If you require an accommodation based on disability, I would like to meet with you in the privacy of my office, during the first week of the semester, to make sure you are properly accommodated.

Academic Dishonesty  
It is the philosophy of The University of Texas at Arlington that academic dishonesty is a completely unacceptable mode of conduct and will not be tolerated in any form. All persons involved in academic dishonesty will be disciplined in accordance with University regulations and procedures. Discipline may include suspension or expulsion from the University.

"Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts." (Regents’ Rules and Regulations, Part One, Chapter VI, Section 3, Subsection 3.2, Subdivision 3.22).

ANY CHEATING WILL RESULT IN SEVERE PENALTIES.

The University of Texas at Arlington supports a variety of student success programs to help you connect with the University and achieve academic success. They include learning assistance, developmental education, advising and mentoring, admission and transition, and federally funded programs. Students requiring assistance academically, personally, or socially should contact the Office of Student Success Programs at 817-272-6107 for more information and appropriate referrals.
